vi) Institutional set up for liquidity risk management

Liquidity represents the ability of the company to generate sufficient cash flow to meet financial obligations, both under normal and stressed conditions, without liquidating assets or raising funds at unfavorable terms. The operations of the company give rise to Asset Liability mismatches and liquidity risks.

In order to manage these risks, the company has a Board approved Asset Liability Management policy in place prepared on the basis of RBI guidelines and internal factors specific to our business. The policy is reviewed on annual basis.
