## **BOB Financial Solutions Limited**

## RFP #: BFSL/Fraud&Risk RFP/19-20/01

Sr. No	Section & Clause Ref. No./Appendix no/Annexure no	Page No.	RFP text	Query	Response to query (to be left blank by the vendor)
1	4.0. High Level Roll out:- Point 2	16	Delivery of hardware & other items (if any) at DC and DRS (Implementation of Phase 1).	Is the Hardware to be configured in DC and DR as standalone systems or is a High Availability configuration required?	Hardware will be under the scope of BFSL
2	4.0. High Level Roll out:- Point 2	16	Delivery of hardware & other items (if any) at DC and DRS (Implementation of Phase 1).	Is any active passive configuration required	Hardware will be under the scope of BFSL
3	3.0 scope of works. Poject objective Point 2	11	The design, supply, configuration, customization, integration, testing, user acceptance, documentation, training, warranty support and post warranty maintenance support for all the solution components including software/ hardware/ database/ licenses/ tools provided for the fulfilment of Terms & Conditions, Technical specifications and Scope of Work mentioned elsewhere in the RFP.	Does the bank have any prefered Database?	Hardware will be under the scope of BFSL, Mandatory lisiting as mentioned in Addendum 2 , subscription is with BFSL. However Training, UAT Integration and other relevant requirement will be with Bidder
4	3.0 scope of works. Poject objective Point 2	11	The design, supply, configuration, customization, integration, testing, user acceptance, documentation, training, warranty support and post warranty maintenance support for all the solution components including software/ hardware/ database/ licenses/ tools provided for the fulfilment of Terms & Conditions, Technical specifications and Scope of Work mentioned elsewhere in the RFP.	and reduce cost of ownership.	License will be taken care by BFSL for Hardware
_	2.3	10	The selected vendor will be responsible for successful data integration with existing	In which format is the data available? Roughly, what is the size of the data?	Data is maintained in Oracle.
6	2.4	10	customer data available with the Company Interface/Other Scope related details: b) Third party interface c) CCMS,LMS,merchant interface	What are the credit card management and loan management solutions that need interfacing with?     Can the Bank please give a list of all the 3rd party systems with which the proposed system has to interface?	1) CCMS & LMS are internal to BFSL. Bidder should have capability to integrate there system with BFSL. 2)Thirty party systems can be like subscription listing integration.
7	3.1	11	File Based (SFTP) Mode – Straight Through Process: Transactions files at periodic intervals System giving real time alerts BFSL intends to integrate interfaces in real- time/near real-time	Can the Bank please clarify whether the proposed system should raise alerts in batch or real time/near real time, or all three modes?	Pre boarding real time and post boarding batch
8	3.1	11	The proposed solution shall scrub the uploaded data with various caution lists & rules	Do "caution lists" refer to UNSCR, OFAC and PEP lists, and Bank's own lists of retail and corporate entities?	Caution List includes all watch list including UNSCR, OFAC, AL Qaida, Taliban and PEP etc.
9		12	Any enforcement/penalty imposed by the Law Enforcement Agencies	What is the proposed system expected to do with respect to the enforcement/penalty by LEA? Can the Bank please explain?	Bidders system must be able to integrate with listing of LEA, etc and provide information.
10	3.2 - 1	14	Based on the contents of the RFP, the selected vendor shall be required to independently arrive at a RFP for Selection of vendor for Sanction Screening, STR/CTR/CBWT etc., Transaction Monitoring and Reporting, which is suitable for the Company, after taking into consideration the efforts estimated for implementation of the same and the resource and the equipment requirements.	Can the Bank please clarify the expected functionality?	BFSL wants bidders to have capability to work towards finalization and fulfillment of RFP scope and implementation.
11	Appendix 1	218	The tool should allow users to Capture screenshots and share comments with others.	Can the Bank please clarify the expected functionality? The user can use normal screen capture tools like Print Screen and Snipping Tool. Is any additional feature required? If so, can we get some clarification?	No, Additonal feature required.
12	Appendix 1	221	Support for advanced search techniques to search data provided by enforcement agencies. It should enable the user to enter the match score, sub string search, inclusion of various search parameters to refine the search.	Through what source and what format will this data be provided by enforcement agencies? How will it be provided to the AML system?	Bidder system should be able to read all the fields provided in the watch list/ Caution list. BFSL wants to have advance search functionality to filter out the data using multiple parameters. (eg. Name, DOB, Address code, PAN etc)
13	Appendix 1	224	Address the challenges in statutory reports "submission by automating the process from data extraction to submission to FIU before cut-off date. Various reports like List screening report for new and existing customers, transaction report, transactions in High-risk countries report, kyc gap reports etc. There should be an option to download reports in various formats like xls, rtf, pdf etc.	Should the system generate the reports automatically?	YES

Alerts to be generated by the bidder system but none of the transaction Should be blocked.  Not as of now, but its good to have functionality for furture usage.  Its not Dedupe bidder system should be able to consolidate all the prodcuts available against the customer in BFSL system and should be provided under one umberalla (CIF)  The bidder has to provide a solutions which provides quick retrieval
21 22 23 23 24 25 26	7.11 / Compliance Statement/ RFP 7.11 / Compliance Statement/ RFP 8.2.3a/Techno-Functional features evaluation and Demonstration /RFP  3.1 - Phase-1/RFP  Appendix 1/SI.No. 10  Appendix 1/SI.No. 43	32 36 31 11 1	Appendix 12: Project Team Profiles The Data sheet as per Appendix 06 – Comments on Terms & Conditions shall also be submitted Data on Terms & Conditions comments and and they shall also indicate the Page number in the bid, at which additional information are enclosed in the brochures, manual, documents etc. In ideal scenario, the Company would expect the Bidder to propose the LMS Solution which would have all line items with Bidder score as "S" System should be capable of, among other things, giving real time alerts to front end users for prevention/detection of suspicious transactions. BFSL intends to integrate the following interfaces in real-time/near real- time using Straight through Process (API, SFTP etc) without any manual intervention to monitor the transactions and minimise the risk. The Solution should come with access capabilities to consolidate enterprise-wide data. The solution should come with Data Manipulation & Predictive Analytics Capability. Provision for identifying the Multiple customers IDs (Card/supplementary) card/Personal Loan) and group them in to one CIF's.  The solution should have ability to archive cases offline and restore case as needed.  "The above projections are only indicative	Pls explain what this data sheet is ? And what is expected to be done.  What is expected to be done here. Should the Integrity document be signed by the Bidder and sent along with the RFP response ?  What is LMS in this context ?  What is LMS in this context ?  Is real time transaction monitoring required with the capability to block transactions if required ?  Are Neural Networks, Predictive Analysis, Machine Learning & Artificial intelligence mandatory ?  Is the Dedupe process of identifying Multiple CIP's of same customer mandatory ?  The solution should have ability to archive cases offline and restore case as needed. Should the archival be at a database level or is it soft archival and what is the period of retention of archival data  What is the expected current base of customers and accounts ? And what is the incremental	Project Team Profiles  Comments on Terms & Conditions is not required.  Comments on Terms & Conditions is not required.  This is not required currently, But can be part of furture requirement and Bidder system must be able to integrate with internal BFSL system—  Loan Management System.  Alerts to be generated by the bidder system but none of the transaction Should be blocked.  Not as of now, but its good to have functionality for furture usage.  Its not Dedupe bidder system should be able to consolidate all the prodcuts available against the customer in BFSL system and should be provided under one umberalla (CIF)  The bidder has to provide a solutions which provides quick retrieval
